Singapore, 29 July 2024 – **CLA Global TS** is honoured to announce its conferment of the **Company of Good 2024 – 3 Hearts** at the conferment ceremony held at the Raffles City Convention Centre on 18 July 2024. An initiative by the **National Volunteer & Philanthropy Centre (NVPC)**, the Company of Good Recognition System aims to recognise the contributions of organisations in Singapore for their commitment at the national level to corporate purpose and impact on the People, Society, Governance, Environment and Economic dimensions. This year, 290 organisations were recognised as Companies of Good 2024 under the expanded recognition system. This follows the shift in NVPC's Company of Good strategy from corporate giving to Corporate Purpose.

“We are deeply honoured to be recognised for our ongoing commitment to creating opportunities for our People, our Clients, and our Communities. Giving back has been a core value of our firm since 2008. In recent years, we have further defined our Corporate Purpose and intensified our efforts to make a meaningful impact in the areas of People, Society, Environment, and Economy.” said **Mr. Henry Tan, Group CEO & Chief Innovation Officer, CLA Global TS.**

Since receiving the Champion of Good recognition in 2022, **CLA Global TS** has made significant strides in giving back to society. These efforts range from donations through scholarships, book prizes, and study grants to environmental and community welfare activities.

Since the scholarship's launch, **CLA Global TS** is pleased to see other industry players reaching out to support students' learning journeys in the finance industry.

In addition to supporting various charity events, **CLA Global TS** remains a dedicated participant in the [Boys' Brigade Share-A-Gift Project](#). About Company of Good

The Company of Good Recognition System aims to recognise the contributions of organisations in Singapore for their commitment at the national level to corporate purpose and impact in the People, Society, Governance, Environment and Economic dimensions.

Central to this recognition system is harmonisation. Existing standards, marks and awards conferred on an organisation by the Singapore government and pertinent and global institutions will be considered. Strategically, this brings about the necessary coordination and integration of different standards, awards and marks in Singapore for organisations to be recognised for their holistic contributions at a national level.
